University of Central Florida participants in the 6th Seoul Field Trip will share findings and experiences from their study abroad program in Seoul, South Korea. Participants will share information on the innovative strategies and cultural shifts occurring in Seoul, which have resulted in Seoul becoming a world-class city where technology and innovation intersect with the promotion of work-life balance and an improved quality of life. Topics include changes in human resource management system, performance system, e-government, social service infrastructure, city management and competitiveness. Using the relationship between Seoul Metropolitan Government and Korea University as an exemplar, opportunities for future partnerships will be offered along with preliminary information on the 7th Seoul Field Trip. In conclusion, a brief presentation of student experiences in pictures and video will also be presented.
